SCOUTS TO CAMP IN JULY

At a meeting of the Crow's Nest Pass District Council of the Boy Scouts Association, held at the local Scout headquarters on Monday evening, it was definitely decided to go into camp at Lee Lake for ten days, July 15th to 25th, inclusive.

As Bellevue group found it practically impossible to enter the camp on the per capita basis this year, owing to strike conditions, it was decided that each troop provide their own food and supplies; but, in order that similar foods be given to each troop, the scoutmasters would confer beforehand to arrange the menus for each day.

The question of appointing a camp chief was given some consideration. Rev. A. G. McMorine, of Michel, who acted so efficiently and satisfactorily in that capacity last year, was prevailed upon to again assume that position. Mr. McMorine felt obliged to decline, owing to pressure upon his time, and took pleasure in seconding the motion of Mr. Albert Mark, appointing Commissioner J. W. Gresham to the position of chief of this year's camp, which was supported unanimously.

Upon motion by Gresham-Mark, the Rev. A. S. Partington was appointed district chaplain.

Among the correspondences was a letter from the provincial office, stating that the Dominion headquarters had decided not to send a Canadian contingent to the international jamboree. After some discussion, the following resolution was drafted to be sent to the provincial headquarters:

"It is deeply regretted that Dominion headquarters has decided not to send an official Canadian contingent to the International Jamboree at Gdodolo, Hungary, in 1932. First, such decision, in our opinion, represents a backward step for scouting in Canada; and second, because Canada, being the premier dominion of the Empire, should be officially represented by a district unit."

"Further, that Provincial headquarters bring this very important matter up at its forthcoming meeting in Calgary, with a view to altering the decision."

The above resolution was moved by Rev. A. S. Partington, second by Albert Mark, and carried unanimously.

Correspondence from Dominion headquarters, regarding Scout participation in the Empire Economic Conference as supernumerary messengers, was tabled, and a decision was asked to take the matter up with his own troop.

The meeting was presided over by H. O. Westrup, the president. Present were: Bellevue—C. Emmerson, J. Radford, W. Warn, A. Emmerson, J. J. McIntyre; Hillcrest—H. O. Westrup, D. Grant, J. Norton, A. Mark; Blairmore—J. W. Gresham, J. E. Gillis, G. E. Hills, G. Snodgrass, J. W. Whitehead; Coleman—H. T. Halliwell, Rev. A. S. Partington, A. S. McIllock; Michel—Rev. A. G. McMorine.

HER FAT HAD TO GO

Activity Melted It

Exercise is the enemy of fat. If you are overweight, call up reserves of energy to fight it. Do as this lady did.

"During the past six months, I have made steady improvement while taking Kruschen Salts. I have reduced in lbs. in weight during that period, and have benefited greatly from greater agility and liveliness—all directly attributable to that famous preparation."—Mrs. W. F.

You can take off fat with Kruschen Salts if you will take one-half teaspoon in hot water every morning before breakfast, modify your diet and exercise regularly.

While you are losing fat you will be gaining in energy—in endurance—in ambition. Your skin will grow clearer, and your eyes will sparkle with the good health that Kruschen brings. The old arm chair won't hold you any more—you'll want to be up and doing—you'll enjoy work and active recreation and you'll sleep like a top. You'll lose fat, and probably live years longer.

Speed Of Aeroplane

Man Can Now Travel By Plane Faster Than a Bullet

Man is able to travel today with the speed of a bullet. When Flight Lieutenant Stainforth of the British navy, winner of the 1931 Schneider trophy race, made a speed for the first lap of 418.3 miles an hour, he actually went faster than the maximum speed of a bullet from a British service revolver.

This bullet has a muzzle velocity of 600 feet a second, or 400.09 miles an hour. Therefore, if a revolver were fired just as the flyer passed, in theory the bullet might be expected to travel along beside the ship, and the flyer might feel safe in reaching out and touching it, or even putting it in his pocket while it was still proceeding at full speed.

The flyer's speed might also be said to have been faster than the average speed of a Springfield rifle bullet, says Popular Mechanics Magazine.

Such a missile leaves the muzzle at 2,953 feet a second, equal to 1,608.9 miles an hour, and its average speed over its effective range of 1,000 yards is 1,270 miles an hour. However, after the bullet has covered its effective range, it floats on and on, until, slowed down by air resistance, it drops to the ground. At the end of its flight, it has very little speed, and if the average is taken, it is found to be less than for the plane at top speed. The bullet would win, however, the plane's speed were averaged in the same way.

Taxes: Title to land sold for taxes will not be issued until June 15, 1932, unless the municipality or council has exempted the land from the provision of the Act passed for the protection of land owners. Under the new Act authorizing the postponement of issue of Certificate of Title to Land sold for Taxes, any owner of land lying within a municipality sold for taxes in 1929, or in any preceding year, in respect of which a certificate has not been issued, may make application to the council of the municipality within which the land lies for a certificate postponing the issue of certificate of title to the land until the thirtieth day of November, 1932, if the council fails or refuses to grant the application and to issue the certificate of postponement, the owner may apply to a judge of the district court for the required certificate, and the decision of the judge in the matter shall be final. If you are unable to take an appeal before a Judge of the District Court, you may ask the Debt Adjustment Commissioner for assistance.

If your land has been sold for taxes in the year 1929, or any preceding year, you are advised to consult the secretary-manager of your Rural Municipality, or Council, without delay, because after June 15th, if a certificate is not issued to you, title to your land may pass to the purchaser of the tax sale certificate.

In view of prevailing conditions, the Government of the Province of Saskatchewan is desirous of providing information to farmers regarding the temporary curtailment of remedies for the enforcement of payment of certain debts and the Debt Adjustment Act, 1932. This Act extends protection to residents of the province who are actual residents of and personally bona fide engaged in, or the principal part of whose income is derived from farming operations in the province, or urban residents who own their residence, or who are purchasers of their residence under an agreement for sale, or who are retail merchants and include the executors or administrators of deceased residents if the beneficiaries or any of them are residents of the province.

Saskatchewan Government Provides For Temporary Curtailment Of Remedies In View Of Conditions

The following information is published by the authority of the Hon. W. C. Buckle, Minister of Agriculture of the Government of the Province of Saskatchewan.

The Act, which is for the purpose of providing for the temporary curtailment of remedies for the enforcement of payment of certain debts and therefore enacted the Debt Adjustment Act, 1932. This Act extends protection to residents of the province who are actual residents of and personally bona fide engaged in, or the principal part of whose income is derived from farming operations in the province, or urban residents who own their residence, or who are purchasers of their residence under an agreement for sale, or who are retail merchants and include the executors or administrators of deceased residents if the beneficiaries or any of them are residents of the province.

The Act, however, does not apply to actions which have been decided before the case is referred to the Debt Adjustment Commissioner. It does, however, apply to foreclosure actions, cancellations of agreements for sale, etc., where final order has not been issued by the courts.

The Commissioner of the Debt Adjustment Act is authorized to act as Custodian and Trustee of the Bankruptcy Act and if any farmer is so badly involved that there are no prospects of his being able to pay his debts, then the Commissioner can arrange for bankruptcy proceedings.

The farmer is required to make a deposit of an amount which will cover the cash disbursements, but no fees are charged for services of the department.

The rights of mortgagees under crop leases are also restricted this year. The mortgagee can take no more than one-third of the crop unless the farmer has purchased the seed for use on or off the land, or the share of the cost of blunder twice proportionate to the share of the crop to the mortgagee.

A farmer who is a lessee, purchaser or mortgagee under any lease, agreement for sale or mortgage, made after June 15, 1932, or the share of the crop belonging to the lessor, vendor or mortgagee, pay one year's crop of the mortgagee, and the mortgagee of the receipt of the municipality for such payment, the lessor, vendor or mortgagee shall be entitled only to his one-third share of the crop less the amount shown upon such receipt.

Seizures under any lien agreement, or conditional sale agreement under the Farm Implements Act, or the Conditional Sales Act, must be made by the sheriff of the judicial district within which the seizure is to be made, or under his direction. Generally, this applies to articles bought on the time payment plan such as farm machinery, automobiles, washing machines, tractor separators, horses and cattle.

The vendor's right to recovery of unpaid purchase money on articles sold after April 13th, 1932, on credit, or partly for cash and partly on credit, or if the vendor has a lien thereon, is restricted to his lien upon the articles sold and his right of recovery of such purchase money in the case of sale of land with chattels upon an entire consideration. In other words, the vendor may sue for the payment plan and cannot meet the payments, the vendor can repossess the goods, but he cannot sue for the Debt Adjustment Act does not afford protection to urban dwellers who live in rented houses or apartments.

Information regarding the rights and remedies of debtors will be cheerfully given by Commissioners, Debt Adjustment Act, Regina.

Joseph Reveals Himself To His Brothers. The stern stern breaks down as Judah ends his intercession for Benjamin. He is satisfied with the results of his test. His brothers are not the men at whom he had himself had suffered. The time was ripe for making known to them the fact that he, the great ruler in Egypt, was none other than Joseph, their brother. God, too, was satisfied. The brothers were ready to stand together, and it was time to bring them down into Egypt, there to lay the foundations of a new nation. There follows a dramatic scene.

Joseph sends away his Egyptian attendants, and he alone remains with his brothers. Bursting into tears, he exclaims, "I am Joseph, your brother, whom you sold into Egypt." They are amazed and troubled, and he hastens to add: "Be not grieved, nor angry with yourselves that ye sold me hither; for God did send me before you to preserve life. It was not you that sent me hither, but God."

JUDAH THE TRUE BROTHER

Golden Text: "Behold how good and how pleasant it is for brethren to dwell together in unity."—Psalm 133. 1.

Lesson: Genesis 44.18 to 45.15.

Devotional Reading: Psalm 26. 1-7.

Explanations and Comments

Judah's Plea For Benjamin, 44.18-34. Read chapters 42 and 43. Sincerely and depth of feeling mark Judah's plea throughout. He first of all recalls to Joseph's mind—the great man who is "even as Pharaoh,"—the way in which he had insisted upon bringing Benjamin to him. He had asked the brothers if they had father or brother, and they told him that their father was living and with him was the only remaining child of his mother, "and his father loveth him." "Bring him down to me, the great lord had said, "that I may set mine eyes upon him." And when they had said that the lad could not leave his father, that his father would die if he did, the great man had emphatically declared, "Except ye bring him, I will bring down with you, ye shall see my face no more."

Very touching is Judah's picture then of his father's reluctance to part with Benjamin, a reluctance overcome at last by dire hunger. But his father had reminded them of the way in which he had lost Joseph; "and if ye take this one from me, and harm befall him, I will bring down with me my gray hairs with sorrow to Sheol."

Now therefore, when I come to the servant my father, and the lad is not with us; seeing that his life is bound up in the lad's life, thus Judah speaks, trying to picture what could not, must not be—"it will come to pass that he will die." He had begged his father not to bring down his gray hairs with sorrow to Sheol. "Now therefore, when I come to the servant my father, and the lad is not with us; seeing that his life is bound up in the lad's life, thus Judah speaks, trying to picture what could not, must not be—"it will come to pass that he will die." He had begged his father not to bring down his gray hairs with sorrow to Sheol.

"Oh, how much of poetry and of pathos to behold the father of the rough men, only waiting for some great sorrow to smite upon the upper crust, and bore the artisan well!"—F. B. Meyer.

For each pint of the liquor add one tablespoon of gelatine that has been soaked in cold water. Stir for two minutes over very low flame. Strain and pour over tongue. Used Night Bait

A widow, the owner of a small shop, was usually escorted home by an admirer who carried the cash bag containing the day's takings. It was always heavy.

"You must be doing well," said the man frequently.

"Oh, ay," the widow would reply, "it's a good business."

But she did not disclose the fact that besides the moderate takings the cash bag contained the counter weights. The dandy lover only discovered that fact after marriage.

The only way in which a man may indulge in a lottery in this country is to step up to the altar and say: "I will."

Saskatchewan Producers Submit Findings For Presentation To Imperial Conference

Care in deciding on a policy of import quotas in wheat for Britain at the coming Imperial Conference is urged by Saskatchewan producers.

Neither for or against wheat quotas, recommendations to the provincial government from the recent conference of producers in connection with the Imperial Conference asked "careful consideration" by Canada's delegates to this point.

The findings of Saskatchewan's producers were announced by Hon. M. A. MacPherson, Provincial Treasurer. Armed with the information received from agricultural interests, the Saskatchewan government will meet representatives of other western governments for the purpose of drawing up western Canada's brief for the guidance of Canada's delegates to the Imperial Conference.

Full proposals of the committee were: (1) An investigation of the possibilities of a stabilizing Empire currency. (2) The encouragement of a maximum exchange of Canadian agricultural products for British manufactured goods. (3) The safeguarding of the home market for agricultural products so far as is consistent with satisfactory inter-Empire trade relations. (4) A continuance of the Empire marketing board.

(5) Encouragement of the use of the port of Churchill and the Hudson Bay Railway. (6) General consideration of any proposal for the establishment of import quotas for wheat. (7) Extension of the same privileges and consideration to Canadian cattle as accorded to other British Empire products. (8) Consideration of elimination of export bonuses in the dairy industry, or in the alternative, provisions to offset the effects of same.

(9) Benefits to be accrued from the development of a trade in bacon, hams, pork and pork products.

Fence Restored Between Scotch Clan After 187 Years

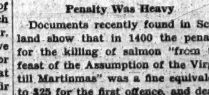

The Campbells and MacLeans are at peace after a feud of 187 years. A telegram from the Duke of Argyll, chief of the Clan Campbell, to Col. Sir Fitzroy MacLean, head of all the MacLeans, who celebrated his 97th birthday on the Isle of Mull, Scotland, brought about the reconciliation.

"The Campbells and the MacLeans are now friends again. The sword is buried forever. Colonel MacLean said after receiving the telegram. The feud started in 1745 when the chief of the MacLean-Clan suspected his wife of intrigue with one of the Clan Campbell.

Penalty Was Heavy

Documents recently found in Scotland show that in 1400 the penalty for the killing of salmon "from the feast of the Assumption of the Virgin till Martinmas" was a fine equivalent to 325 for the first offence, and death for the third offence.

Canadian production of tobacco in 1931 totalled 51,300,000 pounds valued at \$7,177,540.

ORGANIZED OR UN-ORGANIZED LABOR

Hearst is quoted with the statement to the effect that he is in favor of organized labor, and that the printers' union has taken a lot of worries off his mind. Broad minded people in general are in favor of properly organized labor unions, and under proper guidance they are of benefit to employer and employee alike. But if the labor unions are to be controlled by red agitators who are working on the reputation of properly organized labor unions, it is different. We understand that red speakers in the Crows' Nest openly declare that they want revolution. It appears that the world is already in a state of revolution, and this is largely responsible for many of our troubles of the present, as there are very few stable governments in the world. At the present time we want a return to normal world conditions, with governments which are not likely to be overthrown by revolution, under whose leadership business and credits can be carried on in a normal way. With surpluses of products sufficient to feed and clothe the population of the world, people are going hungry and nearly naked, and it is a question whether the fault lies entirely with our present system, or with those who are seeking to overthrow it. Certainly normal business cannot be resumed with those countries which are likely to turn Bolshevik and cancel their debts, and while the reds may bring about revolution, they will not end depredations.

We cannot understand why military training and cadet training in Canada should appear to some people like a red rag to a bull. Canada is a part of the greatest empire that the world has ever seen and today controls the great strategic points of the world. We do not believe that the time has yet come to entirely abandon what we hold to be the merits of brotherly love as exemplified by Britishism and other idealism, and it is only right that Canada should share the responsibilities of the defense of the empire with the other British nations. We are all pacifists in that we do not believe in war or want war if it is all possible to settle it in some other way, but it is generally recognized that the time has not yet come to convert words into plow shares and spears into reaping hooks. In the meantime, it is right and proper that all who hope to benefit as citizens of the empire should be prepared to share in the responsibilities of that citizenship, and especially so when, due to the blood shed by forgotten generations, we have more to defend than any other race. If war comes, soldiers will be recruited or conscripted whether training is abolished or not, but their lot can be made more tragic by unpreparedness. Macleod Gazette.

DEPORT ALIENS WHO VIOLATE LAWS

Deportation proceedings against aliens who have become a public charge have evidently been commenced in the East Kootenay. Officer J. A. Silverthorne of the Immigration Department, was a visitor to Cranbrook on Thursday and Friday of last week, and after conferences with the local provincial police, he departed with the first batch of aliens lined up for deportation. We understand that a large number of foreigners who have become public charges during their residence in this country, are listed for investigation, and wherever it is found that an alien has broken

the law, by becoming dependent upon public funds for his support, he will be sent back to his country of origin. Government officials have knowledge of many of these men, who, having the proverbial "nest egg" washed away, have had no hesitation in signing statutory declarations that they were "broke," and were consequently placed upon relief. Others have claimed and received relief on false statements as to their dependents, and these are being proceeded against through the courts.

It is perhaps to be regretted that vigorous action regarding these men have so long been postponed, and all good citizens will agree that such steps are absolutely necessary today. —Cranbrook Courier.

UNFORTUNATE MOVE BY NATIONAL BOY SCOUT ASSOCIATION

The Boy Scouts Association of Canada have made arrangements with Premier R. B. Bennett to provide forty-eight Boy Scouts as supplementary messengers for the Imperial Conference in July. The idea is a notable one. Some of the forty-eight may gather all the romance and glamor which surrounds every international affair, while a few may get a broader education after watching the lobbyists and representatives of special privilege at work. Our one note of criticism is that the offer is open only to those scouts who have the financial means to journey to Ottawa and pay expenses while there. It is unfortunate that the Boy Scouts Association was unable to persuade Mr. Bennett to add a few more scouts to the Imperial Conference expense sheet, so that scouts could be selected by merit instead of on their parents' bank accounts.

No doubt the Dominion government will provide lavish entertainment for the visiting delegates—the recipients of the entire civil service will be made available—yet forty-eight supplementary messengers are asked to do a good deal for the Empire at their own expense. We feel that, in its eagerness to make the Boy Scout movement of service at this time, the association officials have overreached themselves. The Boy Scout movement is essentially democratic, but on this occasion the honor of representing the movement at Ottawa must be bought, not earned. —Dramatic Mail.

AGAIN THOSE GOOD OLD DAYS

In olden days
No one ever saw a bow-legged woman on the street; she kept 'em under cover like the modern woman does lots of her shortcomings.

The fat hen "threw in" the heart and liver free; now he sells it for 30c a pound and throws it in his thumb when he's weighing it.

Mother used to put on more clothes when she disrobed to go to bed than her daughter now does when she dresses to go out.

The right way of living lengthened many a man's days; nowadays the right-of-way living shortens man another man's days.

Daughters always helped their mother to prepare dinner, but now they're usually not home even to help eat it.

People took a tonic when they were run down, now they usually take an ambulance or the hearse.

The most prominent part of an attractive girl was bustle and frill; now it is bustle and thrill.

People used to arise and retire on the same day; now they retire and arise on the same day.

It took a girl two days to get ready for a party; now she's ready any time.

Boys were boys and girls were girls; but nowadays mother and grandmothers are girls also.

They didn't have to hire a big man to teach boys how to play.

A girl was most bustle behind, not bustle ahead.—Ex.

A Boston secretary, who killed her employer, will plead insanity. Anybody who kills an employer these days is crazy.—Judge.

JOHN PLUMMER MARCELLUS

Mr. John Plummer Marcellus, ex-M.L.A., passed quietly away during his sleep on Sunday, May 29th, following a very gradual decline in his health during the past number of years.

Mr. Marcellus would have been 35 years of age on July 26th, and had been in his usual health of late. "It is thought that life passed away about 2 a.m., caused by a slight stroke, which had been preceded by a similar condition some years ago. Mr. Marcellus was predeceased by his wife by thirty-eight days, both having died the usual span of life. There has been an exemplary union, raising their family in harmony, with due regard to each other as the head of their special domain, in the home and community life, following closely those standards of loyalty, firmness of purpose and integrity and with devotion to the finer aspects of life. Their passing so closely together was a fitting incident in the closing of this life as they had lived it. Both Mr. and Mrs. Marcellus were of that cheery disposition which will make their loss deeply felt, not only by their family, but by many close friends and acquaintances.

Coming from Morrisburg, Dundas County, Ontario, with their family in 1880, Mr. Marcellus became one of the leading and most extensive ranchers in the Fishburn district. He was a staunch Liberal and was a member of the first Legislative Assembly of Alberta, under the Hon. A. C. Rutherford regime in 1905. He was a member of Spitz Lake No. 6, A. F. & A. M., and of the Royal Arch, with a membership in Kether Chapter.

The funeral was held from the family residence at 1 p.m. on Tuesday, May 31st, the Rev. W. R. Jeffcott conducting the service.

Members of the Masonic Order attended, conducting their burial ceremony at the graveside. The funeral was very largely attended and interment was made in the Fairview cemetery at Pincher Creek. There were many beautiful floral tributes. The casketbearers were Messrs. E. W. Varley, L. E. Dimadilla, Dr. George D. J. McLean, A. M. Blackburn and J. B. Faulk.

The bereaved family include two daughters, Mrs. F. Gray, of Pincher Creek, and Miss Clara, at home, and six sons, Messrs. William, John and Thomas, at home, and Ellis, Walter and George, resident in the district, to all of whom deepest sympathy in this double bereavement is extended. —Pincher Creek Echo.

KNIGHTS OF PYTHIAS

MEMORIAL SERVICE

HELD AT STANDARD

Pioneer Lodge No. 31 was favored with fine weather on Sunday, when they held their fifth annual Memorial Service for the members of the Knights of Pythias of Alberta, who have been called to the Supreme Lodge on High during the past year.

Members of Calgary lodges motored down for the service and upon their arrival at Standard, they were joined by other Knights of the Dominion, as well as members of the choir for the service, and were entertained at dinner in the K.P. Castle Hall.

At two o'clock, the Knights, representing a large number of lodges of the Dominion, marched from the Castle Hall to the S. & S. Hall, where a large congregation had assembled to witness the ceremony.

The Standard Boy Scouts, led by District Commissioner R. C. Hugh, formed a guard of honor at the door while the Knights entered and later attended the service in a body.

The splendid choir of Knox United Church, Drumheller, was present, and their excellent rendition of several choral selections added greatly to the beauty of the very impressive service, which was as follows:

Hymn, "My Faith Looks up to Thee."

Prayer, by the Rev. V. M. Gilbert, of Glendon.

Choral Selection, "What Are These?"

Memorial Service, conducted by members of Calgary Lodge No. 4, and Crescent Lodge No. 14.

Choral Selection, "Bible's Wave." Address by the Rev. V. M. Gilbert, Choral Selection, "Hymn to Music."

Conclusion of Memorial Service. Choral Selection, "The Eternal God is Thy Refuge."

Benediction by the Rev. Gilbert. During the service, a beautiful wreath, triangular in shape, composed of blue, yellow and red flowers, representing the emblematic colors of the order, was placed on the Pythian altar in memory of the departed brothers.

Mr. W. W. Gillender, of Drumheller, was in charge of the musical arrangement. The Calgary officers who conducted the service were: Mr. A. C. McArthur, Mr. H. D. Lawson, Mr. V. D. MacLean, Mr. Ivan O. Robertson, Mr. J. Miller, Mr. F. D. Mead, Mr. H. G. McKenzie and Mr. J. J. B. Little.

TO THE POINT

On a Dominion dollar there is this inscription: "The Dominion of Canada will pay to the bearer on demand one dollar." The one dollar is in gold. On a dollar of the United States there is this inscription: "This certifies that there has been deposited in the treasury of the United States of America one silver dollar, payable to the bearer on demand." One silver dollar! And the value of the silver in a silver dollar is exactly twenty-eight cents. Yet the American dollar, with 28 cents' worth of silver in it, is worth fifteen cents more than the Canadian dollar backed by gold. How does it strike as an equality of values?

Judge: "Mose, you are guilty of killing chickens, and the fine is five dollars." Mose: "Yassah, Judge. Here am ten dollars which will pay yo' up to and including next Sattiday night."

CONDITIONS IN RUSSIA

Following is an extract from a letter recently received from a friend in Russia:

"The Soviet is shipping most of their American engineers out. They say it's for the want of foreign money, but it's mostly because they have German engineers to work for half the money. 300 marks is a very good salary for a German, that's less than one hundred dollars (\$100). I couldn't work for twice that and live."

A great many are going to Russia and take all the rubles.

"That country is in a very bad condition. People are starving, no food for man or beast. The horses and cows are dying like rats, no feed for them. Instead of filling the five year plan they are filling the cemeteries very fast. I must say the Soviet lot after the foreigners' good. They get plenty. I had plenty of good food, but how many poor persons haven't even enough black bread, that's both heavy, bitter and sour."

"Last October I had a month's holidays. Then I went to the good old south, but no more. People there were not getting half enough, only one half pound of bread, and a small fish, once a week. No meat, tea or sugar. In February a man I knew for years wrote me asking if I could help him. There were twelve persons in his house getting between them five hundred (500) grams of bread—that's about a quarter of a pound. He said: Do help us as we are sitting daily starving, just waiting for death to come. That's one case out of millions. That was a village where the harvest last year was forty-five thousand (45,000) bushels, but it was all shipped out, leaving nothing to feed the village."

"The villages in the north are just as bad, haven't had any flour for two months, before I left nothing but potatoes. I used to drive to one place twice a month, and sometimes often, as I had four drills then. It was 35 kilometres. I had to cross four lakes, and there were women, sixty and seventy-five years old, kneeling on the ice and trying to catch fish. Some days there would be a strong wind and it would be about forty below. The last trip I made there was on March 4th. My head foreman handed me the stores and said I can't work any longer, I get nothing last month, and there is nothing for me this month, because I have some potatoes and a cow. The next day four of ten runners quit, there was nothing to eat and things began to look blue. I had to give them money out of my own pocket to go to the village to get potatoes. I worked until I could go back that night and try to get them allowances, because if it stopped it would be too bad for them."

"The last three months I was there I got ten years older listening to so many coming with their stories of being hungry and out of work. When I went to the office to say good-bye to the bunch, the director says: 'We will miss you because you have been here fighting with us three times a week for the last three months, but what can we do?' But they always helped out in some way. Put this in any one place and any one job such as diamond drilling, all other jobs and other places are alike."

"It wouldn't be half so bad if the Soviet wouldn't ship so much out of the country. If they would keep enough to feed and clothe their people they would get ten times the amount of work done. What can you expect from a bunch of dissatisfied hungry men? If they get a new machine from abroad, in a short time it's broken and out of commission some way or another. Every one who is not in the party is working, not for, but against. The decent Russians will not join the party. It is composed of criminals. I have said to many 'Why not join the party, you will get more food and clothing and have a better time?' 'Before I join those criminals I and my family will starve,' they say. Of course if you are not a criminal you can't join, they don't want you."

"But, they are building a lot of

factories and opening a lot of mines that no private party would look at. It's all free labor, slave labor, but they are far from producing anything yet that the country needs. There is only one hope for Russia and that is if the Japs will go in this summer. Russia already has fifty thousand (50,000) mobilized soldiers in Siberia, and she will fight like hell for two weeks and then she's down. I got it from good authority while I was in Moscow, that Russia is expecting war hourly, on the eastern front. I hope to God she gets it. If the Japs go into Siberia I will be with them. As for the five-year plan, it's a sure failure in every way. In every branch there are roughs and criminals. Take the post office, for instance; if you send a parcel, it's opened and robbed. If you send a telegram, it's never delivered; and if you send a money order it's never received. Everything is the same. I might write for thirty days and not say much.

"I shall have to say good-bye now."

CRANBROOK OLD TIMER PASSES

The hand of death claimed an old time resident of Cranbrook, Wednesday night at the St. Eugene hospital in the passing of Archibald Gillis at the age of 72 years. He had been an inmate of the hospital for the past three and a half years, but was able to get around pretty well until a short time ago.

His birthplace was in Inverness county, Nova Scotia, and he came to this district during the construction of the Crows' Nest railway, doing bridge carpentering and other work between Macleod and Kootenay Landing. His wife died here about fifteen years ago. He is survived by a son, M. Gillis, and a daughter, Mrs. Leek, living in Vernon.

The funeral was held from the Presbyterian church on Saturday afternoon at 2:30 o'clock.—Cranbrook Courier.

Mistress: "What do we need for dinner?"

Servant: "Sure, ma'am, and I've tripped over the rug, and we need a new set of dishes!"

Local and General Items

A man from Granum married an English lass named Iaitt. He's still asking, "Is it?"

A statistician is a man who discovers information like this: Fifty per cent of married people are women.

F. S. Kafory and daughter Vera arrived by motor from Vancouver on Tuesday. They were accompanied by Miss Marion Ennis.

Mrs. J. J. Price, with her little daughter Kathleen, of New York, is visiting her mother and sisters here. They are staying at the home of Mrs. M. Panik.

Mr. and Mrs. F. Diamond are receiving congratulations on the birth of a daughter on Sunday, May 22nd, at St. Vincent's hospital, Pincher Creek.

Complimenting McIsaac upon his excellent performance on the bagpipes recently, he replied: "Och, that's nothing. There's a lot in there yet I canna get out!"

As a Saturday turn in May, Scouts of North Sydney and Florence troops, N.S., planted 4,000 young pine trees on the farm of J. H. MacKinnon. The work was directed by a forest ranger.

"A fisherman in B.C. caught something with a head like a bull-terrier, gills like huge ear-flaps and a neck as thick as a man's thigh. It's enough to make a fisherman swear off fishing," observes the London Advertiser.

A hole-in-one: Last week, two young lads entered into a fist combat. During the altercation the hand of one entered the mouth of the other when it had opened to yell "I've had enough!"

Quite a number of Vets accompanied Sgt.-Major William Brown to the depot last night. Mr. Brown's health is very much impaired and he has been advised by the medical board to go to Calgary for further treatment.

Last kicks are always the silliest. To wit: Harvey Murphy's slam at a local business house that has done more to really help the workers through this and other trying periods than Murphy would intend to do in a thousand years.

The Cranbrook school board has decided that teachers' salaries of \$1000 per annum and over be reduced 10 per cent, and all other high school teachers' salaries be reduced 15 per cent, effective from September 1st next. Salaries of elementary teachers and manual training instructors of \$1400 to be reduced 10 per cent, and all others 5 per cent.

There are approximately 7000 Eskimos in Arctic and sub-Arctic Canada, including the Hudson Bay area. They are progressive and some even have radio receiving sets and sewing machines in their igloos. Many Eskimos own their own schooners with auxiliary gas-oil engines and at Ak-lavik, near the mouth of the Mackenzie River, as many as twenty-five of these schooners will be anchored at a time in summer.

Two Scouts of Westfield, N.J., returned from school at noon to find their mother unconscious on the floor of the gas-filled kitchen. One threw open doors and windows and phoned the doctor; the other immediately began artificial respiration. The doctor, on another case, arrived twenty minutes later to find the mother partially recovered. He declared the boys' promptness had saved her.

The Canadian government is achieving encouraging success with the propagation of antelope in captivity, according to the Natural Resources Department of the Canadian National railways. In 1915 a fenced-in area, known as Nomiskam National Park, was set aside in southwestern Alberta and 42 antelope were enclosed in it. In contrast to previous experiments, the herd thrived in captivity and the number of animals now in the park totals 425.

Association officials pronounced the convention to be a success, stating that despite inclement weather and muddy roads, about sixty representatives of provincial lodges attended. Entertainment was in charge of the Sylvan Lake lodge, and included a banquet Friday evening, when E. E. Hand, Vancouver, grand exalted ruler, spoke.

Mr. Heller presided over the business sessions in the morning and afternoon of Friday. All sessions were closed. Certain recommendations were passed which will be brought up at the annual Dominion convention to be held in Winnipeg in July.

SYMPATHY FOR JUDGES

We are having a terrible time trying to drum up within our conscience some sympathy for the Dominion judges who are going to get a ten per cent salary cut. We know the judges think it is an outrage and we know that they have the sympathy of many people, including Premier Bennett.

We presume the salary of a judge holding a fairly important judgeship is around \$10,000 a year. Ten per cent off will bring him down to \$9,000. How can His Honor buy bread, beefsteak and cakes on that figure? How can he support his family in the manner in which they are accustomed to being supported? How can he retain his austere superlativeness.

Coming down to earth from the dry realm of humor (?) our thoughts drift to the thousands of poor devils, good workmen and good citizens when they get a chance, who are being herded back and forth from city to city, like a lot of wild animals. They have no jobs, nothing to eat, and very little hope. They'd laugh at a ten per cent cut! Nothing from nothing leaves nothing.

Of course the favored ones argue that good lawyers earn double and rebuke what a judge is paid and so judges' salaries should be high enough to induce leading lawyers to be open to receive appointments as judges. Our own idea is that lawyers who get that money are being paid too much. They don't earn it. They are profiteering through being in a monopoly. The men who grow food, build homes, run trains and do the thousand and one useful jobs are just as important, and in many cases more so than our lawyers.

No, we can't squeeze out one sympathetic tear for the judges!—Hanna Herald.

OIL AND GAS

INVESTIGATIONS TO EXTEND NORTHWARD

Investigations into the oil and gas possibilities of the Alberta foothills will be extended northward into the Wildcat Hills this year, according to an announcement by the Geological Survey, Department of Mines, Ottawa. G. S. Hume, who is to conduct this work, will also examine the area lying between Waterton lakes, Alberta, and the valley of the Flathead river, British Columbia. Several interesting oil seepages occur in this area. In addition, Dr. Hume will make a detailed map of a promising structure known as the Birch River anticline, lying to the northwest of the Fisher Creek, and to the south of the Two Pine anticlines, mapped last year. Regional mapping has shown that the Birch river anticline offers favorable prospects for the accumulation of oil and gas.

The coal mining areas near Blairmore and in the Crow's Nest Pass district will be studied in detail by F. R. Mackay. Owing to the faulting and folding of the seams in these areas, considerable difficulty has been experienced by mine operators, and development costs are high. On the completion of the work, Dr. Mackay will visit the coalfields of central and southern Alberta and of the Fernie coal basin, in southeastern British Columbia. Samples of coal for classification purposes will be collected at the latter localities.

In British Columbia, field parties will operate in the northern portion of Vancouver Island, in the Portland Canal district, in the Taku river area, in the Cariboo placer area, in the vicinity of Okanagan lake and in the Peace river, Cranbrook and Crow's Nest areas. In the Yukon, an area in the vicinity of Carmacks, considered favorable for placer prospect-

ing, will be mapped and investigated.

An extensive exploratory programme will be undertaken in the Northwest Territories. One party under D. F. Kidd has been engaged since the middle of March in an examination of an area about the pitchblende-silver deposits to the east of Great Bear lake. Additional technical assistants will join the party about July 1st, to permit it to operate in three sections during the brief summer season. A party under G. H. Stockwell will continue a geological exploration of the region lying between Great Bear and Great Slave lakes. L. J. Weeks will continue the exploration of a large region bordering on the northwest coast of Hudson Bay, and extending inland a distance of some 200 miles from Chesterfield Inlet. R. C. McDonald will make a control survey of the coast in this area.

Further work will be conducted in Saskatchewan with respect to the

search for new sources of water supply, and the area about Assiniboia lake in the northern part of the province is to be capped and explored. Large areas north of the Churchill river, and near Cross lake in Manitoba will also be explored.

The formation of an export organization to take advantage of the British Preference of 25 per cent offered Empire berry pulp imports processed in sulphur dioxide, by British Columbia berry growers, seems imminent. The present plans of the promoters call for the production of between 500 and 1000 tons of the fruit pulp this year, and it is expected that markets will be secured in Eastern Canada as well as in Great Britain. Strawberries, raspberries, logans, apricots, plums, blackberries and other kinds of small fruits, all of which are grown in profusion in British Columbia, can be successfully preserved by the sulphur dioxide process, which not only retains the essential qualities of color of the fruit, but preserves it over a long period.

FAULTS

Mankind is made up of peculiar stuff. Each thinks what a model is he; while each thinks the other man unrefined, rough.

Who quite a lot better could be. His time we adopted the excellent plan.

Of leaving our neighbors alone. Let us cease to be critics of our fellow man.

And remember we've faults of our own.

We may think the other man all that is bad.

And regret that he acts in that way.

He may be what we'd consider a cad. With more faults than you'd count in a day.

But if he has faults, need it vex me or you?

Think twice before you cast a stone; And before you hand out that poor fellow his due.

Remember, you've faults of your own.

The world would indeed be much better today.

If each would mind his own affairs. When we see faults in others, just turn away—

Remember, the business is theirs. Do not ponder their faults, and go worrying your head.

Leave the other man's weakness alone.

You'll find 'twill be better for all if, instead,

You remember you've faults of your own.

—William Anderson.

"It is not too much to say that any improvement in the revenues of the railroads will immediately make itself felt in all channels of trade and that the maintenance of railroad solvency will do more than any other domestic factor to restore strength to the nation's institutions," says an editorial in the Charleston, S. C., Post.

The "career open to merit" in railway affairs is well illustrated in the case of Charles H. Ewing, a railroader for 49 consecutive years, recently promoted president of the Reading Company. In 1883, at the age of 17, Ewing began his railroad career as a roadman in the employ of the Philadelphia & Reading Railway, now the Reading Company.

BABE BAPTIZED IN FITFUL GLARE OF THE FIERY CROSS

Weird and eerie was the scene at the christening of Cecile Albertina Georgina Burton, of Ribstone, at Chauvin late Wednesday night, May 25th. In a chill, biting wind, under a moonless sky and in the full glare of a fifty-foot fiery cross amid a sea of upturned faces this tiny mite of humanity received its name and was sprinkled with water—said to have been brought from the river Boyne in Ireland—by Rev. W. H. Zook, of Prevoist, atop of a farm truck on a knoll in Chauvin sports grounds. Immediately thereafter, the national anthem having been sung by the thousand people in the crowd, the infant was declared an honorary member of the Ku Klux Klan by J. J. Maloney, the speaker of the evening.

Maloney, who had been introduced by A. Millar, M.L.A., of Biggar, the man who put the Anderson government into power in Saskatchewan held the attention of the crowd with a lively speech. He wasn't opposing individuals, he said; but a system and he pleaded for one flag, one school, one language—and things like that.

He particularly desired free speech and a free untrammelled press. The fiery cross was a huge pole 6 feet high and with 20-foot cross arm all wrapped with burlap and soaked with various combustibles. As the crowd in unison sang: "Nearer My God To Thee," a Mr. White put:

light to the foot of it, and the flames billowed up and outward, lighting the prairie over a wide area. The gathering was quite orderly and peaceable.

In a community such as ours, one asks the question, "What does all this stuff mean?" Is there any need for the Ku Klux Klan? Are there parts of our province in which the proper authorities have not been able to handle conditions?"

At least the above incident must have been a little tough on the baby. —Provost News.

An Irishman going through a cemetery, read on a tombstone the words, "I still live."

"Bogorra," said Pat. "If I were dead, I'd own up to it!"

Spriggs: "I must see the doctor today—I don't like the looks of my wife."

Jiggs: "I'll come with you. I can't bear the sight of mine, either."

Blainmore Golfer: "They're all afraid to play me. What do you think my handicap is?"

Coleman Girl: "Oh, I don't know. May be it's your face."

A Scotchman, upon entering a sad room, asked for a single spur.

"Saddler: 'What use is one spur?'"
Scotly: "Well, if I can get one side the horse to go, the other side will be to come wif it!"

The two 2-week old Eastern Canadian black bear cubs seen above were born on the Wedgewood Hunting and Fishing Club grounds at Blisset, P.Q. They arrived in Montreal accompanied by Arthur Beavrais, well known guide. They've been called Michael and Mary. As shown by the photograph, and photographs cannot lie, these two babies took early advantage of their first introduction to civilization, to telephone Mother, though a little late for Mother's Day, to assure her they were being well looked after. Michael is listening in while Mary is doing the telephoning. They have been fed on tinned milk since their capture, but sugar is also a favorite article of diet.

The cubs were brought to Montreal by Canadian Pacific Express and went on to New York from the Windsor Station.

CORPL. CAWSEY TRANSFERRED TO LETHBRIDGE

Corpl. J. E. Cawsey, of the R.C.M. and formerly of the A.P.F., has been promoted to the rank of plainclothesman at Lethbridge.

Corpl. Cawsey has been stationed at Pincher Creek for the past nearly five years and the news of his transfer was learned with much regret by many who had come to look upon Mr. and Mrs. Cawsey and their two daughters, Misses Greta and Marjorie, as permanent Pincher Creek residents.

They are leaving today and since the news of their departure was learned have been honored in their various circle of friendships by gifts of remembrance and tokens of esteem.

A community gathering of over one hundred was arranged for in the L.O. O.F. hall on Wednesday evening, when on behalf of the citizens of Pincher Creek and districts Mayor Allison presented Corpl. Cawsey with a travelling set and Mrs. Cawsey with a set of vases. On behalf of the Odd-fellows, Mr. Cawsey was then presented with a Past Grand Jewel and the Rebekahs presented Mrs. Cawsey with a Rebekah Jewel.

Both Mr. and Mrs. Cawsey in a few well chosen words accepted their gifts and expressed their regret in leaving Pincher Creek.

The evening was spent in music, community singing and games, climaxing by a sumptuous supper.

The Mission Band of the United church, Junior Choir and classes of the Sunday school will greatly miss the girls, Greta and Marjorie, in whose honor various parties have been held within the last few days. —Pincher Creek Echo of June 2nd.

K.K.K. AT PINCHER CREEK!!

We were not a little amazed when on Monday morning we heard one of our teachers conversing with another. We didn't want to eavesdrop, but members of the press must always be on the alert. This is the story which we heard told in words of awe and wonderment:

"You know," he said, "my wife and I went for a stroll on Sunday with a couple of our friends. Having climbed all the hills in the vicinity we returned home. Just as we stepped on the porch—(here his voice roared with mystery)—we noticed a white paper tacked on our door with a

small, evil knife. An uncomfortable and she replied that her ankle was feeling crept over for rumors of seized in a burning call 'and the the K.K.K. had reached us. A large hand or claw was fleshless!

stream of purple blood, still wet, was smeared over it, and the impact of the words was terrible. It was full of threats; in fact our very lives were threatened! We were ordered, actually warned to leave the town within twenty-four hours. It was signed 'Two Black Fantoms'. We were afraid to go into the house, but finally got up enough courage to go in. All was quiet. My wife went into the bedroom. Suddenly she screamed! Just as she did this we heard an almost eerie gurgle of laughter and two black figures dashed out of the door. I asked my wife, what had happened,

'Now,' he concluded, "we are simply living in agony for the twenty-four hours are not quite up yet." Very white and haggard, he went into the class-room. The whole school is agog and just can't wait until the twenty-four hours have elapsed. —Pincher Creek's High School Column.

Misses: "Marv, when you wait at table tonight for my guests, please don't wear any jewellery."

Maid: "I have nothing valuable, ma'am; but I thank you for the warning."

DELEGATES TO IMPERIAL PARLEY ARE APPOINTED

Ottawa, Ont.—With the exception of the Irish Free State and Newfoundland, all countries of the British Empire—the United Kingdom, Australia, New Zealand, South Africa, India and Southern Rhodesia—have announced their delegates to the coming Imperial Economic Conference.

Thursday, June 2, New Zealand informed the Canadian Government that her delegates would comprise Premier G. W. Forbes, Hon. W. Downie, Minister of Finance and Customs, and Rt. Hon. J. G. Coates, Minister of Transportation and Employment. The three Antipodean representatives will be in Ottawa for the opening of the conference on Thursday, July 21.

Both the Irish Free State and Newfoundland have definitely accepted the invitations of Prime Minister R. B. Bennett to be represented. President Eamon de Valera will head the Irish Free State delegation in all probability. Newfoundland is at present in the throes of a general election campaign, with polling day set for Saturday, June 11. When the elections of the oldest British colony have recorded their opinion of the administration of Sir Richard Squires, selection of the Newfoundland delegates to the conference will follow.

Headed by Rt. Hon. Stanley Baldwin, Lord President of the Council, and former Prime Minister of Great Britain, the delegation from the United Kingdom will also include Rt. Hon. J. H. Thomas, Secretary of State for the Dominions; Rt. Hon. Lord Halsbury, Secretary of State for War; Rt. Hon. Walter Runciman, President of the Board of Trade; Rt. Hon. Sir Philip Cunliffe-Lister, Secretary of State for the Colonies. The attendance of some of the members of the United Kingdom delegation is contingent on developments from the Lausanne Conference and other international engagements.

Prime Minister Bennett, as the first minister in his administration, will be present at all discussions, following the British practice at Imperial Conferences. As occasion necessitates, his colleagues will be changed from time to time dependent on the matters which are being discussed.

Increase In Canada's Production Attracts British Mining Circles

Montreal, Que.—Nine million dollars of British, Dutch, and Swiss capital is on deposit in Geneva banks at present, awaiting investment in northern Quebec gold properties, stated A. H. Carlisle, British financier, during an interview here.

Mr. Carlisle, who is representing the continental backers of the undertaking, stated that the steady increase in gold production in the first quarter of 1932 in both Quebec and British mining circles where the need of fostering the production of gold throughout the empire was considered of paramount importance.

United States and France Sign Pact Which Will Stimulate Business

The newspaper said application for grant of administration of his estate in the name of George Perceval, his brother, who arrived here a few days ago, and H. J. Washbrough, partner of his solicitors, would be made shortly.

Seeking Agreement

London, Eng.—An important delegation representing the Lancashire cotton industry sailed for Canada on the "Empress of Australia," with the hope of making some agreements with Canadian textile interests in order they may be able to return to England and draw up a report for the British Government, for consideration in connection with the Imperial Economic Conference at Ottawa.

Lead Pencil Duty

Ottawa, Ont.—A value for duty purposes of 35 cents a gross on wood lead pencils was imposed by the Minister of National Revenue, when entered under the general or intermediate tariff rates. On coverage keg stock special value were set on long staves, hoops and headbands.

Won the Derby

Motion Picture Comedian, Well-Known To Canadians, Owner Of Speedy Colt

Epom Downs, Eng.—Tom Walls, motion picture comedian, director and sportsman, whose colt, April the Fifth, won the Derby, is well known to Canadian motion picture audiences. He has produced a series of comedy successes at the Aldwych Theatre in London, teamed with Ralph Lynn, known as the "comedian with the monocle." Their joint appearances in the motion pictures "Flunder," "One Embarrassing Night" and "Tons of Money," have been well received in Canada and the United States.

Walls has been an active figure in development of the British film industry. He personally directed a film version of Frederick Lonsdale's "On Approval" in which he also played a leading role.

Scientists To Visit West

Going To Post At Fort Rae To Secure Data

Montreal, Que.—En route to Fort Rae in the Northwest Territories to make scientific observations, four young Englishmen left Montreal for Edmonton in common with scientists the world over, the observations will be made as part of the 1932-33 polar year program.

Those leaving for Western Canada were: W. A. Grinstead, J. L. Kennedy, young Englishmen left Montreal for Edmonton in common with scientists the world over, the observations will be made as part of the 1932-33 polar year program.

The post at Fort Rae will be maintained from August 1, 1932, until August 31, 1933.

MUTUAL GAINS EXPECTED FROM EMPIRE PARLEY

London, England.—Canada goes to the Imperial Economic Conference in Ottawa in July with the clear cut thought that there must be mutual gains and advantages to all component parts of "the greatest commonwealth of free peoples in the history of the world—the British Empire." Prime Minister R. B. Bennett declared here in addressing a banquet celebrating the ninth annual convention of the Western Ontario Conservative Association.

Speaking to 1,700 persons seated at dinner—the largest political banquet in the history of western Ontario—the Prime Minister dealt with matters of trade and commerce and with various aspects of the forthcoming Imperial Conference. "In July, next month," he said, "we gather together as partners to see how, as far as possible, we may keep our trade within this partnership. We comprise the greatest commonwealth of free peoples the world has ever known. We must trade to the advantage not of one but of all. There must be mutual gains and advantages. There must be mutual arrangements for the benefit of all parts of the empire. We need your help and assistance as the people of Canada. As a cross section of public opinion you are representative and we need behind us the collective weight of a solid public opinion."

Agreements must be reached at the Imperial Conference, declared the Canadian Prime Minister, that shall be to the perpetual mutual advantage of all parts of the empire.

How to Keep from Growing Old

Here's one way of hastening the day of reckoning. These daredevil motorcycle riders of the British Army signal corps are demonstrating a simple method of changing wheels of the sidecar while travelling at fifty miles an hour. The exhibition was one of the thrills staged by the motorbikes at a tournament at Tidworth, England.

NEW JAP PREMIER

Chosen as non-party Premier of Japan to succeed Premier Taniguchi Inukai, recently assassinated, Admiral Makoto Saito (above), is a former Governor of Korea, and was a delegate to the Geneva naval conference in 1927. His appointment by the Emperor is said to have met with the approval of all parties.

Oppose Tank Warfare

Outlawry Of Heavy Tanks Urged At Disarmament Conference

Geneva, Switzerland.—The outlawry of heavy tanks as offensive weapons of war, was urged before the land commission of the disarmament conference Wednesday, June 1, by Lord Stanhope, of Great Britain. He declared that Britain would be prepared to scrap all tanks of 25 tons or more, but favored the retention of lighter tanks for ordinary police work.

Hugh R. Wilson, United States delegate, criticized the commission for its inability to arrive at definitions that would draw a line between tanks and armored cars. Apparently political questions, he said, were dictating the attitude of the experts on this question.

Unanimous agreement was reached by the naval commission to extend the age of battleships from 20 to 26 years. The 26-year age limit for aircraft carriers, was maintained, however, as well as existing age limits on other categories.

Object To Privy Council

Free State Republicans Resent Appeals To Highest Tribunal In Empire

Dublin, Ireland.—The Republican Government of the Irish Free State is drafting a bill to wipe out appeals to the judicial committee of the Privy Council, the highest tribunal in the empire.

The government, it is understood, hopes to submit the bill to the Dail Eireann before the summer adjournment on July 8. It is an adjunct to the proposals to withhold payment of the land annuities to Great Britain, and to abolish the parliamentary oath of allegiance to the crown.

The right of appeal to the Privy Council is already in effect virtually inoperative in the Free State.

Alberta Pioneer Dead

Pincher Creek, Alberta.—John Plummer Marcellus, member of the first Alberta legislature in 1905 and pioneer of the foothills, is dead. He was 90 years old and was predeceased by his wife a month ago. Mr. Marcellus was born in Morrisburg, Dundas County, Ontario, and came to western Canada in 1889.

Balloons Make A Record Flight

U.S. Army Balloon No. 2 Lands Near Hinton, Saskatchewan

Hinton, Sask.—Dogged by adverse weather conditions throughout the long flight, United States army balloon No. 2, under command of Lieutenant Wilfred J. Paul, landed in a driving rain storm 14 miles north of here, winning the National Balloon race from Omaha, Nebraska, and probably setting a new world's duration record for balloons of its capacity. Lieutenant Paul and his co-pilot, Lieutenant J. H. Bishop, of Scott Field, Ill., had only a vague idea of their whereabouts when they came to earth. In a make-shift shelter the two weary aeronauts curled up and slept until breakfast, when they set about dismantling the balloon which had not been damaged by the severe electrical storm.

On arrival here, Lieutenant Paul told of his experiences on the trip. "We took off from Omaha at 7:30 p.m. May 30," he said, "flying due north. Several severe lightning storms were narrowly averted during the first night, to avoid which it was necessary to expend a great deal of our ballast supply."

"The next morning found us still sailing in the storm area and above the clouds at an altitude of 12,000 feet. Rain was with us constantly and both Bishop and myself were soaking wet throughout the flight."

Economic Conference

Powers May Meet Around a Council Table in London

Washington.—The United States has responded favorably to a British suggestion that the world powers meet around a council table in London, England, to seek ways of alleviating economic distress.

Ambassador Andrew W. Mellon in London, was instructed to inform Great Britain that the United States thought such a conference "might be of real value in the present depression." He will make it plain, however, that his country will not discuss war debts and reparations.

Britain also is suggesting the conference to France, Italy and the other powers.

The British move for an economic conference follows by almost a year President Hoover's proposal for a moratorium on inter-governmental debts. Once again the world's economic plight has called forth extraordinary measures to meet it.

OATH ABOLITION MIGHT ISOLATE IRISH FREE STATE

Dublin, Ireland.—If the Republican Government's bill to abolish the parliamentary oath of allegiance to the king is passed, the Free State runs the risk of becoming a small, isolated state, Senator Bagwell, Independent and opponent of the government, told the senate during debate.

The Free State would be thrown back on its own resources; would be without credit in the civilized world and bereft of all the advantages of the British connection, Senator Bagwell warned.

Contrary to expectations the House was not filled when debate was resumed. There was no indication of any easing of the differences between government and opposition members over the bill and its consequences, one of which will be the elimination of further negotiations with Great Britain.

Senator Wilson, farmer representative and government supporter, argued that even if the oath were removed the king would remain in the constitution as a symbol of the commonwealth.

"I am not frightened by the threat of dire consequences if we pass the bill," declared Senator Johnson, leader of the Labor party. He asserted that far from violating the provisions of the Anglo-Irish treaty, the oath bill actually implemented that agreement.

During debate in the dail on financial reorganization, former finance minister Ernest Blyden said many people who were living on incomes derived outside the Free State had left the country and many more intended leaving.

Wednesday night, June 1, it was learned the Dublin tobacco manufacturers, Gallagher, Limited, had given 200 employees a week's notice and had announced the firm would close down. The announcement said it would not carry on in the face of differential duty rates now included in the budget.

CARGES FROM EUROPE BOOKED FOR H. B. PORT

Montreal, Que.—The first west-bound shipment of cargo to the port of Churchill, in Hudson Bay, has been booked, W. H. Harling, steamship agent, announced here.

Either the S.S. Pennyworth, or the "Teleworth" will load general cargo at Antwerp and Liverpool during the first half of July for discharge in Manitoba's new seaport, Mr. Harling announced. Both vessels are owned by the Dalgleish Steam Shipping Company, Limited, which last year won the "Fairway" and "Workworth" to Churchill for the first cargo of grain to be shipped via the Hudson Bay route.

Official announcement of the Saskatchewan wheat pool of the shipment of 280,000 more bushels of wheat via the Hudson Bay Railway has been made.

The big shipment of wheat, the second to be routed through Churchill, Man., Canada's northern port, will begin moving shortly. The wheat has been purchased by Louis Dreyfus and Co., Ltd., international grain exporters, with headquarters at Paris, France.

Wheat forming the 280,000 additional bushels will be taken from northern Saskatchewan elevators, pool officials state. It will move soon and instructions for loading will be issued within the next few days.

Churchill grain facilities will be crammed with the second shipment. The port is at present equipped to handle only 2,500,000 bushels. The second pool shipment makes the total grain handled reach nearly to that mark.

Already nearly 2,000,000 bushels of wheat is rolling north to Churchill, some of it now stored in the Churchill terminal elevator. This grain was purchased through the wheat pool by the Continental Grain Company for export to Europe.

There is some prospect of an early shipping season on the Bay route with first ships reaching Churchill by the end of June.

Before that time grain will be moved up to Churchill and stored in the 2,000,000 bushel elevator. Permits are required from Hon. R. J. Manion, Federal Minister of Railways and Canals, before grain can be moved up the railway.

Discounts War With Russia

Rumors Of Disension Are Unfounded Says Japanese Premier

Tokyo, Japan.—Viscount Minoru Saito, Japan's Premier and Foreign Minister, asserted in a written statement that there is absolutely no danger of war between his country and Soviet Russia.

"The Japanese Government," he stated repeatedly, "has no danger of war with the Soviet Union exists," he said. "The attitude of the Soviet Government respecting affairs in Manchuria has been perfectly correct, and we only regret that the Soviet Government might see a way to renege such a further measure of confidence in Japan's concentration of troops in the Far East."

"This concentration, the Japanese government believes, is the real source of recent unfounded rumors of disension between our two countries."

Dominion Day Dinner

Prince Of Wales To Attend Event To Be Held In London

London, England.—The Prince of Wales will attend the Dominion Day dinner at the Savoy here on June 30, presided over by Hon. G. Howard Ferguson, Canadian High Commissioner to Great Britain.

The event this year takes the form of a dinner to the British Government's delegates to the Imperial Economic Conference, occurring almost on the evening of their departure for Ottawa.

Newspaper Advertising

Toronto, Ont.—One New York department store sold more than \$96,000,000 worth of merchandise last year through the medium of newspaper advertising, which cost less than \$2,000,000, C. H. Henry, local advertising man, told the Advertising and Sales' Club meeting here.

Death Penalty For Kidnapping

Washington.—The Cochran bill to make inter-state kidnapping a federal crime punishable by death was approved by the United States House of Representatives judiciary committee.

One way not to become a busybody
is to keep the body busy.

W. Oliver and B. P. McEwen, of
Lethbridge, are motor visitors to
Blaimore and Coleman today.

H. Bossenberry, M.L.A., and Doc
Macintosh were up from Pincher
Creek on Wednesday.

Hell has at last been discovered,
and during the past week at least
two attempts were made to punch it
out of Murphy.

When a client asked Doc Lillie if
the new teeth would feel natural,
Doc replied: "Sure, so natural that
their liable to ache."

Perhaps I am a bit of a fanatic—

W. H. Chappell left on Tuesday

tendance at the 27th annual session—

We are in receipt of a copy of the

ern Scenic Red Trail Association. The

tion of special interest to tourists,
including a number of illustrations.

The regular meeting of Crows'

the home of Mrs. J. McPhail, on Mon-
day, June 13th, at 7:30 p.m. All
members are requested to attend, as
this will be the last meeting till Sep-
tember.

The funeral of the late David

day afternoon last and was very
largely attended. Service was held
in the United church by Rev. A. E.

rest in the Union cemetery.

pound in weight or thirteen inches in
length are not allowed to bite.

Corbin workers, who have been ap-
portioning part of their pay checks
towards relief of strikers at Blair-
more and Bellevue, received a set-
back here on Saturday night, which
will no doubt have the desired and
wonted effect of putting an end to
relief funds coming in from such out-
side points. Hillcrest workers re-
ceived a similar jolt.

The postponed double-header soft-
ball games between the Blaimore
ladies and Fernie ladies, and the
Blaimore men and Fernie Bowlers,
at Fernie, was partially marred again
last evening. The ladies managed to
play part of their game, Blaimore
winning by a score of 9 to 7, but the
game between the men had to be
called off owing to rain.

We regret that, in a recent issue
of this paper, a word should have
been used in describing the singing
of Mrs. Davies, of Hillcrest, that ap-
parently was harmful, instead of do-
ing justice to this very much admired
vocalist. Our correspondent, in ex-
planation, states: "We considered
Mrs. E. A. Davies' voice exceptionally
sweet." Her selections were thor-
oughly enjoyed by the large audience, who
wish to express sincere thanks to
both Mrs. Davies and Mrs. Thomas, as
well as the Coleman Glee Club, for
their kindness in favoring them
with a concert of such high order.
